

Autonomous 24-Hour AI Scrubbing + Certified Coding: Guaranteed 98%+ Clean Claims

US medical practices lose an average of \$210,000 annually to preventable denials, unworked aged AR, and 9-to-5 billing latency. Aethera pairs deterministic rules engines with AAPC-certified specialists to submit clean claims overnight.

CYCLE TURNAROUND

Encounter Lock → EDI Submission

THE DUAL-ENGINE OPERATIONAL ADVANTAGE

Deterministic AI Pre-Scrubber **MILLISECOND ENGINE**

Evaluates 100% of claims against 180,000+ NCCI bundling edits, LCD/NCD clinical policies, and commercial payer modifier rules (25, 59, XE/XP) prior to EDI 837 transmission.

Cross-Border AAPC Certified Coders **24-HOUR CONTINUOUS**

US encounter logs lock at 5 PM EST. Our certified offshore operations hub in Chennai takes over immediately, resolving flagged exceptions and entering charges overnight.

Algorithmic Denial Interception **ZERO CHERRY-PICKING**

When an 835 remittance posts a denial (e.g. CO-16, CO-45, PR-204), automated root-cause workflows trigger an appeal or corrected claim within 48 hours without human delay.

ENTERPRISE COMPLIANCE & FRICTIONLESS EHR INTEGRATION

Zero PHI Retention Architecture **HIPAA & SOC2**

Patient health information is processed in ephemeral encrypted memory. Never stored in third-party databases, and never used to train public generative LLMs. Standard BAA provided.

Universal EHR / PM Interoperability **48-HOUR SETUP**

Works directly inside your existing software via secure VPN/remote login or clearinghouse SFTP. Native compatibility with Epic, AthenaHealth, Kareo, AdvancedMD, eClinicalWorks, and NextGen.

Executive Reporting & Dedicated Pod **SOVEREIGN POD**

You are assigned a dedicated US Account Manager and designated AAPC certified pod. Real-time portal shows daily cash receipts, clean claim rate, and aged AR breakdown.

THE CONTINUOUS 24-HOUR TURNAROUND MODEL

Guaranteed 24-Hour SLA on All Charge Entry & Claims

5:00 PM EST

Encounter Lock

Provider locks charts. Raw charges exported or staged in EHR.

6:00 PM EST

AI Scrub Engine

Deterministic NCCI + LCD crosswalk tags errors in 120 seconds.

11:00 PM - 5:00 AM

Certified Coding

AAPC specialists review medical records and resolve flagged edits.

7:00 AM EST

Submission Clean

Clean EDI 837 claims sent to clearinghouse before clinic doors open.

RISK-FREE PROOF OF CONCEPT

The 10-Claim Recovery Sprint

Send us 10 of your oldest, hardest denied claims. In 48 hours, our clinical coding team performs forensic analysis, generates complete appeal packets, and identifies exact recoverable revenue. Zero commitment, zero cost. You keep 100% of the recovered cash.
