

The Invisible Backend Engine for US Medical Billing Companies: Expand Net Margins from 22% to 55%+

US medical billing agency owners face a dual squeeze: domestic biller turnover at 32% (\$65k/yr payroll + recruitment fees) and client clinics demanding faster collections. Aethera acts as your 100% invisible, AAPC-certified offshore engine powered by deterministic AI.

TRADITIONAL IN-HOUSE MODEL

\$62,000/yr

Per biller base + taxes + benefits + churn. Net agency margin capped at ~20–25%.

THE AETHERA WHITE-LABEL MODEL

55%–62%

Net profit margin. Fixed or tiered claim rate with guaranteed 98%+ clean submissions.

TURNAROUND SPEED

Overnight

Encounter batched at 5 PM EST; scrubbed, coded, and filed by 7 AM EST next morning.

• WHY AGENCY OWNERS PARTNER WITH US

100% Invisible White-Labeling **ZERO DISRUPTION**

We work inside your practice management logins, your clearinghouse accounts, and your branded email domains. Your physician clients only see your team delivering outstanding collections.

Eliminate Biller Recruitment & Churn **SCALABLE PODS**

No more panic when a senior biller quits. Aethera provisions dedicated AAPC-certified pods (CPC/COC) with redundant leads who master your specific client payer guidelines and specialties.

Deep Denial Interception (No Cherry-Picking)

**AGED AR
KILLER**

Standard domestic billers ignore small \$80–\$150 denials or complex modifier disputes. Our offshore engine processes 100% of 835 denials with algorithmic appeal generation within 48 hours.

• SECURITY, COMPLIANCE & WORKFLOW CONTROL

Strict HIPAA / BAA Trust Framework **FULL INDEMNITY**

We execute standard Business Associate Agreements (BAA) with your company. Encrypted VPN access, remote desktop protocols, and zero external storage of client PHI.

Deterministic AI Scrubber Included **180K+ EDITS**

We run your encounters through our proprietary NCCI, LCD/NCD, and payer crosswalk engine before submission. You get enterprise-grade scrubber tech without multi-thousand dollar SaaS fees.

Flexible Margin-Expanding Pricing **PREDICTABLE COST**

Choose between flat fee per processed claim (\$2.20–\$4.50 depending on specialty) or a low revenue-share tier. You capture the spread and double your agency EBITDA.
