

The 24-Hour AI Engine for US Clinics

How AI + timezones eliminate billing backlogs while you sleep.

Key Takeaway: Why US practices are ditching 9-to-5 billing for continuous 24-hour cycles.

Encounter Batch Closes

US doctors finalize charting for the day.

- **Lock EHR:** Clinical notes and provider charges signed off.
- **EDI 837 Export:** Raw encounter files queued for intake.

Deterministic AI Scrubbing

Rules engine checks thousands of payer edits.

- **NCCI Bundling:** Columns 1 & 2 evaluated in milliseconds.
- **Modifier Crosswalk:** Payer-specific policy rules verified.

India Clinical Review

Certified AAPC specialists in Chennai take over.

- **Exception Resolution:** Humans review AI-flagged edge cases.
- **Denial Appeals:** Appeals drafted against morning remittances.

Zero Backlog at Clinic Open

Clean claims submitted before the first patient walks in.
